

# DELIVERING PERFORMANCE TESTING WITH INTEGRITY

StarBase is one of the UK's leading independent testing consultancies, trusted by major enterprises to mitigate IT systems risk since 1992.

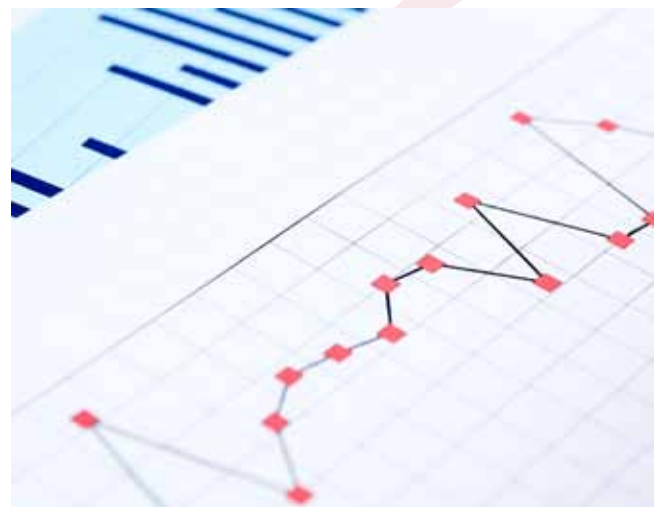

We leverage our collective experience to provide innovative, cost-effective testing solutions, whether for particular testing resources or a fully outsourced service.

## Test smarter with StarBase

As specialists, we possess an unrivalled depth of competence, knowledge and insight, creating visionary and value-adding solutions for the most complex situations. We take on challenges, solve problems and deliver results where others fail.

Our business is built on three core principles: **integrity, knowledge and delivery.**

Our consistent focus on this philosophy has earned us a reputation for high standards and satisfied clients.

Our clients trust us as a safe pair of hands, and we pride ourselves on getting the job done, meeting our clients' objectives on time and to budget

## Trusted by leading UK & international businesses

In over 20 years of operation, we have worked with some of the largest enterprises across a broad range of industries. We often work with our clients over multiple projects and many years. We count over 100 companies as past and present clients, including:

- Deutsche Bank
- Aviva
- KPMG
- Accenture
- NHS
- Citigroup
- Sainsbury's

Our clients say our strengths are in our people, processes and partnerships. These are upheld by our skills, experience and project management expertise, with the support of local resources

**“If you pay for good resources, you get top quality services. StarBase were flexible in coming back to us when software problems were found. The value-add was not just in finding the problem, but in helping to fix the problem.”**

EMI

## StarBase enables business performance

We anticipate and quickly identify problems with your software and systems before they impact your business. Our consultants understand the risks that system underperformance and failure can pose to your revenue, brand reputation and customer loyalty.

We engage and challenge our clients, implementing rigorous testing methodologies and fulfilling our promises. StarBase delivers better outcomes by designing better test cases and test scripts and picking the best tools for the job at hand.

Our extensive range of specialist testing services includes:

### Performance Testing

**Performance Investigation** – a comprehensive, end-to-end performance testing service for your project's needs

**Performance Evaluation** – a rapid diagnostic service for assuring the performance of new or updated applications

**Managed Services** – a solution that moves beyond the project level to coordinate all the elements of your testing programme

## Functional testing

We specialise in the planning and management of automated testing, particularly for SOA and message-based systems as well as traditional functional testing.

### Tools

We can help you choose the right software tool for the job in hand. We work with HP, IBM Green Hat, Spirent and iTrinegy, for whom we are a software reseller as well as a consulting partner.

Contact us to find out more about how your business could benefit from StarBase's smart approach to testing.

StarBase is the UK's leading performance testing consultancy, trusted by major enterprises to mitigate IT systems risk since 1992. We ensure the consistent performance of our clients' key systems. As specialists, we possess an unrivalled depth of experience, knowledge and insight, creating smart and value-adding solutions for complex situations.

### Performance Testing

Combining the best testing tools with effective processes can improve the bottom line

### Testing Tools

Guidance on testing tool selection - the right tools for your technology challenges and to improve productivity
